Alice M Cook

Product design lead in New York

Website | alicemiocook@gmail.com | LinkedIn

9 years of experience building digital products across fintech, AI, healthcare, and enterprise platforms. Specialized in 0 to 1 design, design systems, accessibility, and cross-functional collaboration.

EXPERIENCE

INDEPENDENT PRODUCT DESIGN CONSULTANT

Oct 2025 - Present

Remote in New York

Working with healthcare and academic clients, and building 0 to 1 products.

- Designed healthcare product concepts translating complex clinical information and medical-record workflows into clear, trustworthy user experiences.
- Designed, researched, and built Point2Picture, an AAC communication support app, from concept through beta testing and App Store launch using Figma, React Native, Expo, and Cursor.

LEAD PRODUCT DESIGNER

Jan 2023 - Sep 2025

Office of Eric Schmidt, New York, NY

Sole product designer and user research lead on the Technical Projects Group, leading end-to-end design across 0→1 products with nonprofit, scientific research, and technology partners.

- Led research and product design for a scientific protocol platform, interviewing scientists and translating complex laboratory workflows into a text-first product with AI-assisted feedback.
- Designed a mobile-first AI canvassing training tool, conducting 12 user interviews and field research; 80% of participants reported increased confidence after using the experience.
- Designed an AI-powered media asset discovery platform spanning 15,000+ hours of video content and multiple data sources.
- Shipped 0→1 products that contributed to 30% customer-base growth across partner organizations.

PRODUCT DESIGN LEAD

Aug 2020 - Dec 2022

Nulab Inc., New York, NY

Led product design and a team of three designers across Nulab's suite of collaboration products serving 4M+ users.

- Built and scaled a company-wide design system from the ground up, establishing 50+ reusable components, foundations, documentation, and design review processes across multiple products.
- Partnered across product and engineering teams to improve consistency, accessibility, responsive behavior, and implementation across the product ecosystem.
- Led web experience improvements that contributed to a 10× increase in SEO visibility and growth to 150K+ monthly organic visitors.

SENIOR UX/UI DESIGNER

Nov 2016 - Aug 2020

JPMorgan Chase., New York, NY

Led UX design for digital payments across credit card, auto, and home-lending platforms, serving 60M+ digital users.

- Built and scaled a company-wide design system from the ground up, establishing 50+ reusable components, foundations, documentation, and design review processes across multiple products.
- Partnered across product and engineering teams to improve consistency, accessibility, responsive behavior, and implementation across the product ecosystem.
- Led web experience improvements that contributed to a 10× increase in SEO visibility and growth to 150K+ monthly organic visitors.

MENTOR, UX/UI DESIGN

Sep 2020 - Jan 2021

Chegg, by Thinkful, Remote in NY

Guided aspiring UX/UI designers through 1:1 mentorship, focusing on design fundamentals, portfolio development, and job readiness.
