

Alice M Cook, Product Design Lead in New York

[Website](#) | alicemiocook@gmail.com | [LinkedIn](#)

Product Design Lead with 8+ years of experience building digital products across fintech, AI, healthcare, and enterprise platforms. Specialized in 0→1 design, design systems, accessibility, and cross-functional collaboration.

EXPERIENCE

Independent Product Design Consultant, Remote, Oct 2025 – Present

Working with healthcare and academic clients, and building 0 to 1 products.

Stealth Health Tech Startup

- Translating complex clinical models into accessible and trustworthy interfaces.

Point2Picture (Founder)

- Designed and built an augmentative and alternative communication tool. Conducted user research with parents and therapists and iterated through beta testing.
- Built the application using React Native, Expo, Cursor AI, and Figma.

Columbia University

- Redesigned and modernized an academic website supporting book launches and improving discoverability of publications and research.

Lead Product Designer, Office of Eric Schmidt, New York, NY Jan 2023 - Sep 2025

Sole product designer and user research lead on the Technical Projects Group team, responsible for end-to-end design processes and execution.

- Designed and launched 0 to 1 products resulting in 30% customer base growth across partner organizations spanning scientific research, AI, civic engagement, and nonprofit initiatives.
- Designed tools including a scientific protocol platform, AI media asset finder, civic canvassing chatbot, and social analytics applications.

Product Design Lead, Nulab Inc., New York, NY Aug 2020 - Dec 2022

Led the evolution of a company-wide design system supporting 4M+ users across multiple products.

- Established reusable components, design foundations, and review processes that accelerated iteration and improved consistency.
- Contributed to a 10× increase in organic traffic and growth to 150k monthly visitors.

Mentor, UX/UI Design, Thinkful by Chegg, Remote, Sep 2020 - Dec 2020

Guided aspiring UX/UI designers through 1:1 mentorship, focusing on design fundamentals, portfolio development, and job readiness.

Senior UX/UI Designer, JPMorgan Chase & Co., New York, NY Nov 2016 - Aug 2020

Led UX design for digital payments across credit card, auto, and home-lending platforms, serving 60M+ digital users.

- Redesigned the most-visited payment flow to be fully accessible and WCAG-compliant, improving readability, screen-reader support, and task completion for customers using assistive technology.
- Designed and launched Chase Pay across iOS, Android, and web, driving 18% growth in the first four months.
- Led design for the Pay with Points feature on ecommerce partners including Best Buy and 1-800-Flowers.
- Owned the point-of-sale experience for cashier and gas-station checkout flows, improving usability and reducing friction based on extensive user testing and feedback.

Graphic Designer, Patrick Nash Design, New York, NY Oct 2014 - Oct 2016

Designed and managed digital and physical brand assets for architectural and signage projects. Built and maintained the company website and client relationships.
