

Alice M Cook

Product Design Lead in Brooklyn, NY

[Website](#) | alicemioed@gmail.com | [LinkedIn](#) | (917) 943-0656

Product designer with 8 years of experience designing and scaling systems across fintech, AI tools, civic tech, and productivity platforms. Specialized in 0 to 1 design, data-informed UX, and design systems that drive measurable growth and impact.

Experience

Lead Product Designer, Office of Eric Schmidt, New York, NY Jan 2022 - Sep 2025

Sole product designer and user research lead on the Technical Projects Group team, responsible for end-to-end design processes and execution.

- Designed and launched 0 to 1 products resulting in 30% customer base growth across partner organizations.
- Created tools including: a scientific protocol enhancement platform, AI media asset finder, civic canvassing chatbot, social data analytics tool, and a tech-for-nonprofits matching platform.
- Partnered with cross-disciplinary teams to define UX vision, conduct user testing, and align design goals with technical feasibility.

Product Design Lead, Nulab Inc., New York, NY (Remote) Aug 2020 - Dec 2022

Led a distributed design team supporting 4M+ global users across productivity and workflow tools: Backlog, Cacao, and Typetalk.

- Directed the company-wide design system and brand refresh, ensuring visual and functional consistency.
- Drove the domain merge design initiative, improving SEO and engagement across Asia and North America.
- Enabled faster iteration cycles by creating design system foundations and reusable components and a collaborative review process on Figma.

Mentor, UX/UI Design, Thinkful by Chegg, (Remote) Sep 2020 - Dec 2020

Guided aspiring UX/UI designers through 1:1 mentorship, focusing on design fundamentals, portfolio development, and job readiness.

Senior UX/UI Designer, JPMorgan Chase & Co., New York, NY Nov 2016 - Aug 2020

Led UX design for digital payments across credit card, auto, and home-lending platforms, serving 60M+ digital users.

- Redesigned the most-visited payment flow to be fully accessible and WCAG-compliant, improving readability, screen-reader support, and task completion for customers using assistive technology.
- Designed and launched Chase Pay across iOS, Android, and web, driving 18% growth in the first four months.
- Led design for the Pay with Points feature on ecommerce partners including Best Buy and 1-800-Flowers.
- Owned the point-of-sale experience for cashier and gas-station checkout flows,

improving usability and reducing friction based on extensive user testing and feedback.

Graphic and Production Designer, Patrick Nash Design, New York, NY Oct 2014 - Oct 2016

Designed and managed digital and physical brand assets for architectural and signage projects. Built and maintained the company website and client relationships.

Skills

- **Design & UX:**
User-centered design, interaction design, information architecture, web design, iOS and Android mobile design, UX writing, content design, product strategy, data-driven design, design leadership, responsible AI UX, human-in-the-loop workflow design, explainability-focused interfaces, trust & safety design patterns
- **Prototyping & Tools:**
High-fidelity prototyping (Figma, Sketch, Jitter, Adobe Creative Suite), Cursor AI, vibe coding, wireframing, concept sketches
- **Research & Testing:**
User research, user interviews, usability testing, A/B testing, quality assurance, user acceptance testing, AI behavior and safety, bias, hallucinations, and edge-case failures, post-deployment monitoring through analytics
- **Accessibility:**
WCAG 2.1 AA compliance, inclusive design, accessibility audits
- **Technical:**
HTML/CSS, vibe-coding in Cursor AI, generative AI, large language models (LLMs), evaluation metrics for AI outputs (NLP, chatbots, and conversational UX)
- **Collaboration:**
Cross-functional alignment, presentations, design workshops, mentorship, working with legal/compliance/risk teams, partnering with data analytics teams, cross-disciplinary decision-making for regulated environments
